Description

Seal is a rubber swim fin made in Taiwan. It is available in one or two colours, including black, blue, yellow, red and orange. It incorporates many attributes of the Victor rubber swim fin, which is also manufactured in Taiwan. A recent version of the Seal fin is the Maya Balance, marketed online in Israel at <http://www.dugit.co.il/>, where it is currently out of stock.

Features:

- Extra-heavy side rails offer maximum underwater propulsion.
- Foot pocket made of quality softer rubber for comfortable fit.
- Available in both floating and non-floating styles.

Antecedents

The pictures above show how two famous names in the swimming equipment business, Kiefer and Voit, chose the Seal design when they outsourced fin production in the past.
