Description

The 12A is a rubber swim fin made in Taiwan. It is available in floating and non-floating. It can be produced in one or two colours, including black, grey, blue, green, red and orange. It may be colour-coordinated by size for easy identification, as with the Aropec F-JS12A Foundation fin.

Features:

- Comfortable closed foot pocket.
- Suitable for snorkelling.
- Open-toe, full foot design for quick draining.
- Durable soft rubber pockets for quick draining.
- Perfect for swim race training.
- Short blade design provides a right amount of propulsion.
- High quality natural rubber with soft toe and heel for comfort.
- Balanced blade and soft comfortable foot pocket ensures performance, comfort and durability.

Antecedents

The F-JS12A Foundation fin made by Aropec Sports Corporation of Taichung, Taiwan, is a relative newcomer. It dates back to the early 2010s, when the Aropec F-JS120 Intention fin was also first introduced.

Marium Sports Company Limited in the same city currently offers solid-colour and two-tone versions of the 12A fin in its range of "high-quality swimwear".
